Architecture

Motivation

- PSA's culture built on FISH! (everyone for each other) and FISH+ (everyone for the business) ² inspires employees to support peers, collaborate, innovate, and grow
- Developing cognitive resilience among the workforce is key in driving innovation and maintaining labour competitiveness in today's evolving global economy ⁴
- With a diverse and global workforce with ~58,000 employees ², PSA needs to provide a comprehensive career development process that can meet the varied needs and aspirations of its global workforce

Vision

- Provide an integrated and intelligent platform to bridge gaps in career guidance and skill development
- Empower employees to grow, stay engaged, and thrive at work, aligning personal success with organisational excellence
- Strengthen internal support pathways by ensuring employees have access to mentorship, collaboration, and career development opportunities whenever they need them

FISH!

**Choose Your Attitude
Be There
Make Their Day
Play**

Core Features

Career Dashboard

- Track present and future milestones in career path
- View AI-driven leadership potential insights

Mentor Matching

- AI-driven pairing based on skills and goals
- Supports real-time chat and video interactions

Events Hub

- Discover trending internal and peer-led events
- Filter events based on interests and career growth

Wellness Buddy

- Provide conversational personal wellbeing advice
- Offers guided activities to track mental health

Career Dashboard

Key Features

- Visualise career pathway and milestones
- Receive insights on leadership potential based on historical data
- View personalised upskilling/reskilling opportunities to improve competency in current position
- View education, language abilities and project contributions
- Indicate interest on suggested future positions based on strengths and career trajectory

Desired Outcomes:

- Support internal mobility and retention
- Help employees stay relevant in their current roles by encouraging personalised skill development
- Identify high-potential leaders early through AI-driven insights

Team Management

Key Features

- Evaluate team members' performance across different leadership dimensions such as communication, decision-making, teamwork, and adaptability
- Monitor recent emotional states inferred from wellness buddy chats
- View career paths that team members are interested in and the relevant skills required

Desired Outcomes:

- Managers can identify and nurture leadership potential early through structured, data-driven reviews, fostering a stronger internal talent pipeline.
- Continuous mood and performance tracking helps supervisors intervene proactively, improving team morale and overall effectiveness.
- Gain clarity on subordinates' career aspirations and provided target advice on their interested positions and involved skills.

Events Hub

Key Features

- Discover recommended, trending, and upcoming events
- Organise employee-led events
- Calendar integration
- Connect with event participants
- Provided feedback comments on joined events
- Virtual participation for remote employees

Desired Outcomes:

- Promote inclusive participation for remote-working employees
- Encourage employee-led events that provide insights on trends, interests and emerging leaders
- Promote knowledge sharing across different teams and departments

- Embody the "Play" principle₂ by making wellness routines more personalised and fun
- Collect employee insights to help derive future workplace wellbeing policies

Did you know?

Doing just 10 minutes of mindfulness daily can help boost to your mood, reduce stress and improve motivation₁

Executive Summary

Mission

PSA Horizon is an all-in-one digital platform designed to empower employees by integrating personalised career development, meaningful mentorship, and proactive well-being support to foster a highly engaged and thriving workforce.

Challenge

To realize PSA's **N2N vision** and build a **Future-Ready** Workforce, PSA must overcome the strategic challenge of digitally scaling personalized support across its 58,000-employee global workforce. This requires a unified platform to not only track and deploy the comprehensive C3 development framework, but also to address critical people risks — a rising LTIFR of 3.38 signals an urgent need for proactive well-being support and a more psychologically safe environment. We believe an integrated solution is required to formalize mentorship, drive value beyond the average of 33 training hours per employee annually and globally reinforce the FISH! culture of 'Support' and 'Be There'.

Core Features

Career Dashboard 	Provides employees with a personalised roadmap to track their Capability, Competency, and Capacity (C3) growth. The platform surfaces recommended courses and events from PSA University , directly supporting the creation an agile, future-ready workforce.
Mentor Matching 	Enables the 'Be There', 'Make Their Day' principle of the FISH! philosophy by using intelligent matching to pair employees based on skills and career aspirations. This facilitates peer-to-peer knowledge transfer, where senior leaders act as a key element in supporting staff development.
Wellness Buddy 	Offer personalised, human-like advice and guided relaxation activities to promote the holistic wellbeing of employees.
Events Hub 	Centralises and promotes internal, employee-initiated events, embodying the 'Be There' and 'Play' FISH! principles. Helps to fosters a strong sense of community and belonging across the global "Team PSA".
